

# TABLE OF CONTENTS

<b>Table of Contents</b> .....	<b>3</b>
<b>List of Figures and tables</b> .....	<b>5</b>
<b>Foreword</b> .....	<b>11</b>
<b>Executive Summary</b> .....	<b>13</b>
<b>What are work-related musculoskeletal disorders?</b> .....	<b>13</b>
<b>Musculoskeletal disorders — the extent of the problem</b> .....	<b>13</b>
<b>Self-reported MSDs</b> .....	<b>14</b>
<b>Accidents at work linked to MSDs risk factors (e.g. lifting of loads)</b> .....	<b>18</b>
<b>Absenteeism linked to musculoskeletal disorders</b> .....	<b>18</b>
<b>Costs of MSDs</b> .....	<b>18</b>
<b>Risk factors for MSDs</b> .....	<b>19</b>
<b>Some key findings highlighted</b> .....	<b>22</b>
<b>What to do</b> .....	<b>23</b>
<b>1. Introduction</b> .....	<b>25</b>
<b>2. Defining the problem</b> .....	<b>27</b>
<b>3. Health problems</b> .....	<b>29</b>
3.1. Musculoskeletal disorders — the overall European picture .....	30
3.1.1. Self-reported MSDs .....	30
3.1.2. Self-reported MSDs — Variations between Member States .....	31
3.1.3. Recognised cases of MSDs: European Occupational Disease Statistics (EODS) .....	34
3.2. Musculoskeletal disorders — Data by gender .....	37
3.2.1. Self-reported MSDs .....	37
3.2.2. Recognised occupational diseases — gender differences .....	39
3.3. Data by age .....	41
3.3.1. Self-reported MSDs .....	41
3.4. Data by sector .....	44
3.4.1. Self-reported MSDs .....	44
3.4.2. Recognised cases of MSDs .....	46
3.5. Data by occupation .....	48
3.5.1. Self-reported MSDs by occupation .....	48
3.5.2. Recognised cases of MSDs in specific occupations .....	49
3.6. Data by employment status .....	50
3.6.1. Self-reported MSDs .....	50
3.7. Musculoskeletal disorders — Data from the Member States .....	51
3.7.1. Scoreboard 2005 (Denmark, Finland, Sweden, Netherlands, Ireland, UK) .....	51
3.7.2. Austria .....	54
3.7.3. Belgium .....	57

3.7.4. Cyprus	60
3.7.5. Czech Republic	62
3.7.6. Denmark	65
3.7.7. Finland	67
3.7.8. France	69
3.7.9. Germany	75
3.7.10. Greece	80
3.7.11. Ireland	82
3.7.12. Latvia	84
3.7.13. Netherlands	84
3.7.14. Poland	85
3.7.15. Portugal	87
3.7.16. Slovenia	87
3.7.17. Spain	89
3.7.18. Sweden	93
3.7.19. United Kingdom	95
<hr/>	
<b>4. Costs of work-related musculoskeletal disorders</b>	<b>99</b>
<hr/>	
<b>5. Risk factors of work-related MSDs</b>	<b>103</b>
5.1. European data sources	104
5.1.1. Self-reported exposure to MSDs risk factors	104
5.1.2. Gender, jobs and working conditions in the European Union	106
5.1.3. MSDs risk factors and gender	108
5.1.4. MSDs risk factors and age	114
5.1.5. MSDs risk factors and industrial sector	116
5.1.6. MSDs risk factors and occupation	118
5.1.7. Self-employed workers	119
5.1.8. Summary: Groups at risks	120
5.2. Data from the Member States	121
5.2.1. ESWC data – Overview by country and risk factor	121
5.2.2. Czech Republic	123
5.2.3. Finland	124
5.2.4. France	125
5.2.5. Germany	130
5.2.6. Hungary	134
5.2.7. Poland	135
5.2.8. Spain	136
5.3. More studies and initiatives – Combined exposures and organisational MSDs risk factors	138
5.3.1. Time constraints at work and health risks in Europe (EU)	138
5.3.2. Return to work after long-term sickness absence (United Kingdom)	139
5.3.3. Temporary Agency work (Germany, SUGA 2006)	140
5.3.4. Upper limb disorders in keyboard workers (UK)	141
5.3.5. Periarticular disorders of the upper limbs and sector (France)	142
5.3.6. MSDs in call centres (Sweden)	144
5.3.7. Work-related musculoskeletal symptoms reported by female flight attendants on long-haul flights (USA)	144
5.3.8. Influence of low job control on MSDs – Analysis of sickness absence data (Germany)	145
5.3.9. The importance of variation of tasks and control over the speed of work – The “BIT” follow up study on office workers (Denmark)	145
5.3.10. Horizon scanning: Teleworkers and the trend to mobile workplaces (United Kingdom)	146
5.4. Europe-wide initiatives	148
5.4.1. SLIC manual handling campaign	148
5.4.2. MSDs in the telecommunication sector	149
5.4.3. European agreement of the agricultural social partners concerning musculoskeletal disorders	150
<hr/>	
<b>6. Conclusions</b>	<b>151</b>
6.1. Self-reported health problems and recognised cases of MSDs	152

6.2. Accidents at work linked to MSDs risk factors (e.g. lifting of loads) .....	156
6.3. Absenteeism linked to musculoskeletal disorders .....	156
6.4. Risk factors for musculoskeletal disorders – impact of working conditions .....	157
6.5. Recommendations .....	160
6.5.1. Prevention and inspection .....	160
6.5.2. Recognition and monitoring .....	162
6.5.3. Rehabilitation and return-to-work-strategies .....	164
<b>7. Legislation .....</b>	<b>165</b>
<b>8. Methodology .....</b>	<b>173</b>
8.1. Administrative data sources .....	174
8.1.1. Occupational diseases .....	174
8.1.2. Occupational accidents .....	175
8.1.3. Inspections .....	175
8.2. Surveys .....	175
8.2.1. Labour Force Survey .....	175
8.2.2. Surveys on work-related diseases and working conditions .....	175
8.2.3. European Survey of Enterprises on New and Emerging Risks (ESENER) .....	176
8.2.4. Additional sources .....	176
8.3. Comparability of data .....	176
<b>9. Acknowledgements (Agency) .....</b>	<b>177</b>

## LIST OF FIGURES AND TABLES

Figure 1: Percentage share of workers reporting health problems, EU-27, 2005 .....	14
Figure 2: % Workers reporting MSDs, ESWC 2005, 2000 and European Survey of Candidate Countries (ESCC) 2001 .....	15
Figure 3: Proportion of occupational diseases, EODS obligatory list, 2005 .....	16
Figure 4: Risk factors for MSDs, % of workers being exposed a quarter of the working time, ESWC 2005 ..	20
Figure 5: Percentage share of workers reporting health problems (general), EU-27, 2005 .....	30
Figure 6: % Workers reporting MSDs, ESWC 2005, 2000 and ESCC 2001 .....	31
Figure 7: % Workers reporting backache, ESWC 2005 .....	32
Figure 8: % Workers reporting muscular pain in neck and shoulders, ESWC 2000 – ESCC 2001 .....	32
Figure 9: % Workers reporting muscular pain in upper and lower limbs, ESWC 2000 – ESCC 2001 .....	33
Figure 10: Work-related health problems, EU-15, %, LFS 1999 ad hoc module .....	33
Figure 11: Proportion of occupational diseases, EODS obligatory list, 2005 .....	35
Figure 12: Absolute number of MSDs and carpal tunnel syndrome, 2005. EU-15, except Germany, Greece and Ireland .....	36
Figure 13: Percentage distribution of occupational diseases, 2002-2005. EU-15, except Germany, Greece and Ireland .....	37
Figure 14: % Workers reporting health problems, backache and muscular pains, by gender, EU-27, 2005 ..	38
Figure 15: % Women in the manufacturing sector reporting a specific health problem or to be exposed to a certain risk factor, EU-27, ESWC 2005 .....	39
Figure 16: Musculoskeletal diseases – percentage as compared to all recognised occupational diseases – by gender, EODS 2002-2005 .....	40
Figure 17: Absolute number of MSDs and carpal tunnel syndrome. EU-15, except Germany, Greece and Ireland, by gender, 2005 .....	40
Figure 18: Incidence rate (per 100 000 workers) of non-fatal occupational musculoskeletal diseases, EODS obligatory list (by gender), EU-15, except Germany, Greece and Ireland, 2005 .....	41
Figure 19: Percentage share of workers reporting health problems, backache and muscular pains, by age, EU-27, 2005 .....	42
Figure 20: Percentage share of workers reporting backache and muscular pains: young workers (under 25) in manufacturing, total young workers in EU-27 and total EU-27, 2005 .....	42
Figure 21: Number of work-related health problems: musculoskeletal disorders, 1999 .....	43

Figure 22: Standardised prevalence rate of work-related health problems: musculoskeletal disorders (rate per 100 000 workers), ad hoc module LFS 1999 .....	44
Figure 23: Standardised prevalence rate (per 100,000 workers) of musculoskeletal disorders, by sector, ad hoc module LFS 1999 .....	44
Figure 24: Percentage share of workers reporting health problems, backache and muscular pains, by sector, EU-27, 2005 .....	45
Figure 25: Percentage share of workers reporting backache and muscular pains, women in health and social work, total women in EU-27 and total EU-27, 2005 .....	46
Figure 26: Incidence rate (per 100 000 workers) of non-fatal occupational musculoskeletal diseases and carpal tunnel syndrome, EODS obligatory list (by sector, except mining), 2005 .....	47
Figure 27: Different patterns of recognised upper-limb disorders by sector (Incidence rate (per 100 000 workers), EODS obligatory list (by sector), 2005) .....	47
Figure 28: Relative prevalence rate of work-related health problems: Musculoskeletal disorders (EU mean rate = 100 for each severity), by occupation, ad hoc module LFS 1999 .....	48
Figure 29: Percentage share of workers reporting health problems, backache and muscular pains, by occupation, EU-27, 2005 .....	49
Figure 30: Incidence rate of non-fatal occupational musculoskeletal diseases and carpal tunnel syndrome (per 100 000 workers) by occupation, disease, EODS obligatory list, 2005 .....	49
Figure 31: Percentage share of workers reporting health problems, backache and muscular pains, by employment status, EU-27, 2005 .....	50
Figure 32: Effect on health: percentage share of workers reporting backache and muscular pain, by age, 2005, Austria .....	54
Figure 33: Number of accepted and rejected cases MSDs in the open system (general), Belgium .....	58
Figure 34: Number of accepted cases MSDs Skeleton in the closed system (1990-6/10/2004), Belgium ...	59
Figure 35: Proportion (%) of Occupational MSDs on the total number of Occupational Diseases, Czech National Registry of Occupational Diseases, 1996-2005 .....	63
Figure 36: Number of occupational musculoskeletal disorders in the Czech Republic, by age, 1996-2005 ..	63
Figure 37: Proportion of various age categories in the total number of occupational musculoskeletal diseases in the Czech Republic, 1996-2005 .....	64
Figure 38: MSDs – Proportion (%) of all recognised cases, 1994-2003, CNAMTS, France .....	70
Figure 39: Trends in the distribution of occupational diseases, Number of recognised (major) occupational diseases, with absence of work, 2001-2006, CNAMTS .....	71
Figure 40: Percentage distribution by age of occupational diseases caused by postures at work (T57) and vibration and shocks (T69), 2001-2003, France .....	72
Figure 41: Percentage distribution by gender of occupational diseases caused by postures at work (T57) and vibration and shocks (T69), 2001-2003 .....	72
Figure 42: Distribution by sector of occupational diseases caused by postures at work (T57), France ....	73
Figure 43: Prevalence of MSDs during/after work, by body part and age group, in %, BIBB/BAuA survey 2006, Germany .....	76
Figure 44: Prevalence of MSDs during/after work, by body part and sector, in %, BIBB/BAuA survey, 2006, Germany .....	76
Figure 45: Prevalence of MSDs during/after work, by body part and gender, in %, BIBB/BAuA survey, 2006, Germany .....	77
Figure 46: Number of reported musculoskeletal diseases 1999-2004, SUGA, Germany .....	78
Figure 47: Number of accepted musculoskeletal diseases 1999-2004, SUGA, Germany .....	79
Figure 48: Number of newly attributed disability pensions by cause of disease, SUGA 2006 .....	79
Figure 49: Results of sectoral surveys, 2006, % workers reporting health problems, ELINYAE, Greece ...	81
Figure 50: Accidents at work due to physical strain or over exertion (1989-2003), Greece .....	81
Figure 51: Accidents at work by work activity,,Greece .....	82
Figure 52: Number of occupational diseases, 1993-2003, database of occupational diseases in Latvia ...	84
Figure 53: Occupational diseases in Poland, by year, Central Register of Occupational Diseases, Poland	86
Figure 54: Number of sick leave days for full-time employed persons by ICD-10 chapters 2006, Slovenia .....	88
Figure 55: First five most frequent causes for attendance of employees in outpatient health care services by ICD-10, 2001-2006, Slovenia .....	89
Figure 56: Musculoskeletal health problems of workers by body part and gender (Encuesta Nacional 2007), Spain .....	90
Figure 57: Body part affected by MSDs by sector, VI Encuesta Nacional, 2006, Spain .....	91
Figure 58: Percentage share of MSDs in total occupational diseases reported by sector, 2000- 2003, Spain .....	92

Figure 59: Over 3 day injuries to employees by most frequent kind of accident 1996/97 to 2007/08, HSE, UK . . . . .	96
Figure 60: % of workers report being exposed at least 25% of the working time, ESWC 2005 . . . . .	104
Figure 61: Health problems related to making repetitive hand/arm movements, % workers, ESWC 2000, EU-15 . . . . .	105
Figure 62: % of workers report being exposed at least 25% of the working time, ESWC 2000 /2005 and ESCC 2001 . . . . .	105
Figure 63: Percentage workers carrying or moving heavy loads, working in painful/tiring positions and reporting repetitive hand/arm movements (all of them at least 25% of the time), by geographic area, 2005 . . . . .	106
Figure 64: Overview: Exposure to MSDs risk factors, by gender, exposed at least 25% of the working time, ESWC 2005 . . . . .	108
Figure 65: EWCS 2005 results by gender – geographical distribution: Does your main paid job involve standing or walking? (Percentage of workers, all the time) . . . . .	109
Figure 66: Self-reported exposure to MSDs risk factors in the health care sector, ESWC 2005 . . . . .	111
Figure 67: Self-reported exposure to MSDs risk factors in manufacturing, ESWC 2005, % workers reporting exposure . . . . .	112
Figure 68: Self-reported exposure to MSDs risk factors by age, ESWC 2005, % workers reporting exposure, at least a quarter of the working time . . . . .	115
Figure 69: Self-reported exposure of young workers to MSDs risk factors in manufacturing, ESWC 2005, % workers reporting exposure . . . . .	115
Figure 70: Overview: Exposure to MSDs risk factors by sector, ESWC 2005, % workers exposed . . . . .	117
Figure 71: Overview: Exposure at least a quarter of the time, by occupation, ESWC 2005 . . . . .	118
Figure 72: Overview: Exposure at least a quarter of the time, self-employed versus employed workers, ESWC 2005 missing DATA . . . . .	119
Figure 73: Overview: exposure to MSDs risk factors at least a quarter of the time, ESWC 2005 . . . . .	121
Figure 74: Workers exposed to awkward postures by risk category and gender . . . . .	124
Figure 75: % Workers exposed to "heavy work", SUMER 2003 results, France . . . . .	127
Figure 76: Number of risk factors by gender / % of workers exposed, SUMER 2003, France . . . . .	128
Figure 77: % workers exposed to two or more MSDs risk factors by gender and age, SUMER 2003, France . . . . .	128
Figure 78: SLIC manual handling inspection campaign France - sectoral results (% enterprises who have introduced measures) . . . . .	129
Figure 79: MSDs risk factors by gender, BIBB/BAuA survey, in %, 2006, Germany . . . . .	131
Figure 80: MSDs risk factors by age, BIBB/BAuA survey, in %, 2006, Germany . . . . .	132
Figure 81: MSDs risk factors by sector, BIBB/BAuA survey, in %, 2006, Germany . . . . .	132
Figure 82: MSDs risk factors by employment contract, BIBB/BAuA survey, in %, 2006, Germany . . . . .	133
Figure 83: Main postures at workplaces, four main sectors, VI Encuesta Nacional, 2006, Spain . . . . .	137
Figure 84: Flexible working patterns in the UK – facts and previsions . . . . .	147
Figure 85: Overview: Exposure to risk factors of MSDs, at least a quarter of the working time, ESWC 2005 . . . . .	157
Table 1: Number of occupational diseases, EODS obligatory list, 2001-2005 . . . . .	35
Table 2: Incidence rate (per 100 000 workers) of occupational diseases, EODS obligatory list, 2001-2005 . . . . .	36
Table 3: Overview: Scoreboard 2005, national strategies regarding musculoskeletal disorders . . . . .	53
Table 4: % of all days lost due to MSDs by age groups, Austria . . . . .	55
Table 5: Overview: Groups affected by MSDs, Austria . . . . .	57
Table 6: Overview: Groups affected by MSDs, Belgium . . . . .	59
Table 7: Occupational categories reporting work-related health problems, national survey, Cyprus, in % . . . . .	60
Table 8: Main work-related health problems reported, national survey, Cyprus, in % . . . . .	61
Table 9: Overview: Groups affected by MSDs, Czech Republic . . . . .	64
Table 10: Overview: Scoreboard 2005, trends in musculoskeletal disorders and in upper-limb disorders . . . . .	66
Table 11: Overview: Groups affected by MSDs, Finland . . . . .	68
Table 12: Limb disorders 2000-2004 by specific health problem and location, France . . . . .	71
Table 13: Overview: Groups affected by MSDs, France . . . . .	73
Table 14: Overview: Groups most affected by MSDs, Germany . . . . .	80
Table 15: Overview: Groups concerned by MSDs, Poland . . . . .	87

Table 16: Overview: Groups affected by MSDs, Portugal . . . . .	87
Table 17: Overview: Groups at risk for development of MSDs, Spain . . . . .	92
Table 18: Austria: the cost of MSDs estimated . . . . .	101
Table 19: Productivity loss related to diagnosis 2006, Germany . . . . .	102
Table 20: Overview: Groups exposed to risk factors for development of MSDs, Europe, ESWC 2005 . . .	120
Table 21: Workers exposed to risk factors for development of MSDs, ESWC 2005, Member States data, % workers exposed . . . . .	122
Table 22: Prevalence of osteoarthritis of grade 2 or more in any finger joint among dentists and teachers by age categories. . . . .	124
Table 23: Overview: Groups exposed to risk factors for development of MSDs, Finland, Work and health survey . . . . .	125
Table 24: Overview: Groups exposed to risk factors for development of MSDs, France, National statistics for occupational accidents and diseases and accidents to and from work . .	130
Table 25: Overview: Groups exposed to risk factors for development of MSDs, Germany, BIBB/ BAuA survey . . . . .	134
Table 26: ILO conventions related to MSDs . . . . .	166
